

[2026]

STATA®

Carpathian Stata Conference

27 July: Conference • 28 July: Workshop
Babeş-Bolyai University • Cluj-Napoca

Join us in Cluj-Napoca, Romania for the first Carpathian Stata Conference!

Meet researchers from different disciplines, discover new applications highlighting Stata's potential capabilities for applied research, exchange new community-contributed commands developed for Stata, and interact directly with statisticians from StataCorp. There will be an optional workshop on 28 July: **Causal inference using Stata**.

Considered the unofficial capital of Transylvania, Cluj-Napoca is home to a diverse cultural scene, vibrant nightlife, and landmarks such as Saint Michael's church, the Palace of Justice, and a collection of theaters and museums.
